

TABLE OF CONTENTS

EXECUTIVE SUMMARY	ES-1
LIST OF ACRONYMS	
PULL OUT USER GUIDE TO ACRONYMS	
I. PURPOSE AND NEED	I-1
A. INTRODUCTION	I-1
B. PROPOSED ACTION	I-2
C. PURPOSE OF THE EIS	I-2
D. NEED FOR PROPOSED ACTION	I-3
E. STUDY AREA	I-5
F. CHRONOLOGY OF ISSUES	I-5
1. 1997-1999 Chronology	I-5
a. Federal Activities	I-6
b. WV Governor's Study	I-6
c. Litigation	I-7
c.1. <i>Bragg v. Robertson</i>	I-7
c.2. Clean Water Act Allegations	I-7
c.3. SMCRA Allegations	I-7
c.4. <i>Bragg</i> 1998 Settlement	I-8
c.5. 1999 Consent Decree	I-9
c.6. 1999 <i>Bragg</i> decision	I-9
3. 2000-2003 Chronology	I-9
a. Revision to Definition of “Fill Material” under CWA Section 404 and Issuance of Revised NWPs	I-10
b. Litigation	I-10
b.1. <i>Bragg v. Robertson</i>	I-10
b.2. <i>KFTC v. Rivenburgh</i>	I-11
G. SCOPING AND PUBLIC INVOLVEMENT	I-11
1. Public Participation	I-11
a. Public Meetings	I-12
b. Meetings with Citizen Groups	I-12
c. Meetings with Coal Mining Industry Groups	I-12
2. Issues Raised During the Scoping Process	I-12
a. Direct Stream Loss	I-12
b. Stream Impairment	I-13
c. Fill Minimization	I-13
d. Assessing and Mitigating Stream Habitat and Aquatic Functions	I-14
e. Cumulative Impacts	I-15
f. Deforestation	I-15
g. Blasting	I-16
h. Air Quality	I-17
i. Flooding	I-17
j. Land Use	I-18
k. Threatened and Endangered Species	I-18
l. Scenery and Culturally Significant Landscapes	I-19
m. Exotic and Invasive Species	I-19

Table of Contents

- n. Valley Fill Stability I-20
- o. Economics I-20
- p. Environmental Justice I-21
- q. Government Efficiency I-21

- II. ALTERNATIVES II.A-1
 - A. ACTIONS CONSIDERED TO ADDRESS ISSUES IDENTIFIED IN SCOPING II.A-1
 - 1. Programmatic Review II.A-1
 - 2. Technical Studies II.A-2
 - 3. Disposition of the Issues II.A-5
 - a. Blasting II.A-6
 - b. Land Use II.A-6
 - c. Scenery and Culturally Significant Landscapes II.A-6
 - d. Valley Fill Stability II.A-8
 - e. Economics II.A-8
 - f. Environmental Justice II.A-8
 - B. SUMMARY OF ALTERNATIVES CARRIED FORWARD II.B-1
 - 1. Overview of the Alternatives II.B-4
 - a. No Action Alternative: The Regulatory Program Today ... II.B-4
 - a.1. COE CWA Section 404 Program II.B-5
 - a.2. EPA CWA Section 402/404 Programs II.B-6
 - a.3. SMCRA Programs II.B-6
 - b. Summary of Alternative 1: The Number, Size, and Location of Valley Fills in Waters of the U.S. would be Determined by the COE CWA Section 404 Permit Process. II.B-7
 - c. Alternative 2: (Preferred Alternative) The Size, Number, and Location of Valley Fills in Waters of the U.S. would be Determined by a Coordinated Regulatory Process II.B-8
 - d. Alternative 3: The Size, Number, and Location of MTM/VF Valley Fills in Waters of the U.S. would be Determined by an Enhanced SMCRA Regulatory Program . II.B-9
 - 2. Specific Actions Proposed by the Alternatives II.B-10
 - a. Proposals Common to Action Alternatives 1, 2, and 3 II.B-10
 - b. Actions Common to Alternatives 1 and 2 II.B-12
 - c. Actions Common to Alternatives 2 and 3 II.B-12
 - d. Actions Unique to Alternative 1 II.B-12
 - e. Actions Unique to Alternative 2 II.B-12
 - f. Actions Unique to Alternative 3 II.B-12
 - 3. Regulatory and Environmental Benefits of the Alternatives II.B-13
 - a. Regulatory Process Benefits of All Action Alternatives ... II.B-13
 - b. Distinguishing Process Benefits Between the Alternatives . II.B-14
 - c. Environmental Benefits of the No Action Alternative II.B-15
 - d. Environmental Benefits of the Action Alternatives II.B-17

Table of Contents

C.	DETAILED ANALYSES OF THE ACTIONS TO ADDRESS ISSUES	.. II.C-1
1.	Government Efficiency; Sub-issue: Coordinated Decision Making	.. II.C-2
a.	No Action Alternative: The Regulatory Program Today	... II.C-3
a.1.	CWA Section 404 II.C-4
a.2.	CWA Section 404 State Assumption and Programmatic General Permits II.C-8
a.3.	SMCRA II.C-9
a.4.	Other Regulatory Programs II.C-11
a.5.	Permit Sequencing II.C-11
b.	Alternative 1: The Size, Number, and Location of Valley Fills in Waters of the U.S. are Determined by the COE CWA Section 404 Permit Process II.C-11
b.1.	Process and Regulatory Responsibilities II.C-12
b.2.	Memorandum of Agreement (MOA) and Field Operating Procedure (FOP) II.C-16
c.	Alternative 2: (Preferred Alternative) The Size, Number, and Location of Valley Fills in Waters of the U.S. are Determined by a Coordinated Regulatory Process II.C-17
c.1.	Process and Regulatory Responsibilities II.C-18
c.2.	Memorandum of Agreement (MOA) and Field Operating Procedure (FOP) II.C-21
c.3.	Joint Application II.C-22
d.	Alternative 3: The Size, Number, and Location of Valley Fills in Waters of the U.S. are Determined by an Enhanced SMCRA Regulatory Program II.C-23
d.1.	Process, Regulatory Responsibility, and Coordination II.C-24
d.2.	Memorandum of Agreement (MOA) and Field Operating Procedure (FOP) II.C-26
2.	Government Efficiency, Sub-issue: Consistent/Compatible Definitions for Stream Characteristics and Analyses II.C-26
a.	No Action Alternative: The Regulatory Program Today	.. II.C-28
a.1.	CWA Section 404 II.C-28
a.2.	SMCRA II.C-29
a.3.	Other Regulatory Programs II.C-29
b.	Alternatives 1,2 and 3 II.C-29
3.	Direct Stream Loss II.C-30
a.	No Action Alternative: The Regulatory Program Today	.. II.C-31
a.1.	CWA Section 404 II.C-31
a.2.	SMCRA II.C-33
b.	Alternative 1 II.C-35
c.	Alternative 2 and 3 II.C-36
d.	Alternative 1 and 2 II.C-36
4.	Stream Impairment II.C-37
a.	The No Action Alternative: The Regulatory Program Today II.C-38
a.1.	CWA Antidegradation policy II.C-38

Table of Contents

a.2.	CWA Water Quality Standards	II.C-38
a.3.	CWA Section 402 NPDES Permits and Water Quality Protection	II.C-41
a.4.	CWA Section 401 Certification	II.C-42
a.5.	Stream Bio-monitoring	II.C-42
a.6.	Stream Monitoring of Metals and pH	II.C-43
b.	Alternatives 1, 2, and 3	II.C-43
5.	Fill Minimization	II.C-45
a.	No Action Alternative: The Regulatory Program Today ..	II.C-46
a.1.	CWA Section 404 Program	II.C-46
a.2.	SMCRA Program	II.C-47
b.	Alternatives 1, 2, and 3	II.C-49
6.	Assessing and Mitigating Stream Habitat and Aquatic Functions ..	II.C-49
a.	No Action Alternative: The Regulatory Program Today ..	II.C-51
a.1.	CWA Section 404 Program	II.C-51
a.2.	SMCRA	II.C-56
b.	Alternatives 1, 2, and 3	II.C-58
7.	Cumulative Impacts	II.C-62
a.	No Action Alternative: The Regulatory Program Today ..	II.C-64
a.1.	CWA	II.C-64
a.2.	SMCRA	II.C-66
b.	Alternatives 1, 2, and 3	II.C-69
b.1.	Data Integration	II.C-70
b.2.	Delineation of Cumulative Impact Areas (CIAs) ..	II.C-72
b.3.	Establishing Cumulative Impact Thresholds	II.C-73
8.	Deforestation	II.C-75
a.	No Action Alternative: The Regulatory Program Today ..	II.C-77
a.1.	CWA Program	II.C-77
a.2.	DOE Program	II.C-78
a.3.	SMCRA Program	II.C-79
b.	Alternatives 1, 2, and 3	II.C-81
b.1.	Forest Product Recovery and Organic Utilization ..	II.C-82
b.2.	Revegetative Success and Growth Media for Forest PMLUs	II.C-83
b.3.	Natural Succession	II.C-83
b.4.	Technology Transfer and Outreach	II.C-83
9.	Air Quality	II.C-84
a.	No Action Alternative: The Regulatory Program Today ..	II.C-84
a.1.	Clean Air Act	II.C-85
a.2.	SMCRA	II.C-86
b.	Alternatives 1, 2, and 3	II.C-86
10.	Flooding	II.C-87
a.	No Action Alternative: The Regulatory Program Today ..	II.C-88
a.1.	CWA	II.C-88
a.2.	SMCRA	II.C-89
b.	Alternatives 1, 2, and 3	II.C-90
11.	Threatened and Endangered Species	II.C-90

Table of Contents

a.	No Action Alternative: The Regulatory Program Today . . .	II.C-91
a.1.	Migratory Birds	II.C-93
b.	Alternatives 1, 2, and 3	II.C-93
D.	ALTERNATIVES CONSIDERED BUT NOT CARRIED	
	FORWARD IN THIS EIS	II.D-1
1.	Restricting Individual Valley Fills	II.D-1
a.	Limiting Individual Valley Fill Sizes by Type of Stream Segments	II.D-1
b.	Limiting Individual Valley Fill Sizes by Watershed Size . . .	II.D-3
c.	Watershed Fill Restrictions Based on Past Mining Practice and COE Workload Management	II.D-3
d.	Cumulative Impact Restrictions	II.D-6
2.	Fill Restrictions Based on Identification of High-Value Aquatic Resources	II.D-6
a.	CWA Advanced Identification (ADID) of Potential Fill Sites	II.D-7
b.	CWA Special Aquatic Site Designation	II.D-7
c.	Advance Veto	II.D-8
3.	Fill Prohibition	II.D-8
4.	Summary of Fill Restriction Alternatives	II.D-8
III.	AFFECTED ENVIRONMENT AND CONSEQUENCES OF MTM/VF	III.A-1
A.	DESCRIPTION OF THE STUDY AREA	III.A-1
B.	PHYSICAL SETTING	III.B-1
1.	Physiographic Province	III.B-1
2.	Geology	III.B-2
a.	Regional Geologic History	III.B-2
b.	State Geology Summaries	III.B-3
b.1.	Kentucky	III.B-3
b.2.	Tennessee	III.B-3
b.3.	Virginia	III.B-3
b.4.	West Virginia	III.B-4
3.	Soils	III.B-4
a.	Soil Characteristics	III.B-4
a.1.	Soil Formation	III.B-4
a.2.	Soil Profile	III.B-5
a.3.	Soil Classification	III.B-5
b.	Study Area Soils	III.B-5
b.1.	Distribution	III.B-6
4.	Soil Productivity	III.B-8
a.	Applicable Regulations and Observations on Implementation	III.B-9
b.	Mine Soil/Forest Relationships	III.B-12
c.	Effect of Site Index on Timber Value: Oak	III.B-13
d.	Soil/Overburden Chemistry	III.B-15
e.	Soil Compaction	III.B-16
f.	Mycorrhizal Relationships	III.B-16
g.	Planting Trees on Mined Land	III.B-17

Table of Contents

5.	Topography and Geomorphology	III.B-19
a.	Topographic Characteristics	III.B-19
b.	Geomorphic Characteristics	III.B-23
c.	Steep Slopes and Slope Stability	III.B-23
d.	Unstable Slopes	III.B-24
6.	Climate	III.B-25
C.	APPALACHIAN AQUATIC SYSTEMS	III.C-1
1.	Lotic (Flowing) Aquatic Systems	III.C-1
a.	Representative Streams	III.C-1
a.1.	Physical Characteristics	III.C-1
a.2.	Stream Classification	III.C-1
a.3.	Habitats in Streams	III.C-2
b.	Energy Sources and Plant Communities	III.C-3
b.1.	Vascular Plants and Bryophytes	III.C-4
b.2.	Algae	III.C-4
b.3.	Primary Production	III.C-4
b.4.	Allochthonous Energy Sources and Processing	III.C-4
c.	Animal Communities	III.C-7
c.1.	Invertebrates	III.C-7
c.2.	Vertebrates	III.C-9
d.	Ecosystem Function	III.C-11
2.	Lentic (Non-flowing) Aquatic Systems and Wetlands	III.C-13
a.	Overview	III.C-13
b.	Physical Environment	III.C-14
c.	Energy Sources and Plant Communities	III.C-14
c.1.	Phytoplankton and Benthic Dwelling Micro-organisms	III.C-14
c.2.	Vascular Plants	III.C-15
c.3.	Primary Production	III.C-15
d.	Animal Communities	III.C-16
d.1.	Invertebrates	III.C-16
d.2.	Vertebrates	III.C-16
e.	Ecosystem Function	III.C-17
f.	Wetlands in Study Area	III.C-18
3.	Interrelationship Between Headwater Streams and Native Forests	III.C-21
D.	IMPACT PRODUCING FACTORS TO HEADWATER STREAMS FROM MOUNTAINTOP MINING	III.D-1
1.	Studies Relating to Direct and Indirect Surface Water Impacts from Mountaintop Mining and Valley Fills	III.D-1
a.	Loss of Linear Stream Length from Filling and Mining Activities Associated with Fills	III.D-1
b.	Loss of Biota under Fill Foot Print or from Mined Stream Areas	III.D-2
b.1.	Primary Literature Review of Aquatic Communities in Streams with Ephemeral or Intermittent Flow Regimes	III.D-2
b.2.	Studies in the MTM/VF Study Area	III.D-3

Table of Contents

b.3.	Conclusions Regarding the Existence of Aquatic Communities in Streams Potentially Impacted by Direct Filling or Mining Activities	III.D-4
c.	Loss of Upstream Energy from Buried Stream Reaches . . .	III.D-4
d.	Changes in Downstream Thermal Regime	III.D-5
e.	Changes in Downstream Flow Regime	III.D-5
f.	Changes in Downstream Chemistry	III.D-5
f.1.	Studies Addressing this Impact Factor	III.D-6
f.2.	Summary and Conclusions	III.D-7
g.	Changes in Downstream Sedimentation (Bed Characteristics)	III.D-7
h.	Effects to Downstream Biota	III.D-8
h1.	Summary of Results from Upstream-Downstream Comparison Type Studies	III.D-9
h2.	Results of Comparisons of Pre-mining Biotic Conditions to Post-mining Aquatic Communities . .	III.D-9
h3.	Results of A Multivariate Analysis Study on Benthic Invertebrate Communities and Their Responses to Selected Environmental Factors	III.D-10
h4.	Studies of Macroinvertebrate Communities in Stream Sites Located Downstream From Mined or Mined/Valley Filled Areas in Comparison to Reference Locations	III.D-11
2.	Studies Relating to Mitigation Efforts for MTM/VF Impacts to Aquatic Systems	III.D-17
a.	Definition of Mitigation	III.D-17
b.	Mitigation Goals	III.D-17
c.	Requirements for Development of a Successful In-kind Replacement Mitigation Project	III.D-18
d.	Limiting Factors for In-kind Mitigation Projects	III.D-18
e.	Types of Out-of-kind Mitigation	III.D-19
e.1.	Onsite	III.D-19
e.2.	Offsite	III.D-21
E.	COAL MINE DRAINAGE FROM SURFACE MINING	III.E-1
1.	Study Area Water Quality Summary	III.E-1
2.	Coal Mine Drainage	III.E-2
a.	Indicator Parameters	III.E-3
b.	Effects of Coal Mine Drainage	III.E-6
3.	Methods of Controlling CMD	III.E-8
a.	Overburden Blending	III.E-9
b.	Isolation Methods	III.E-9
c.	Submergence Methods	III.E-9
d.	Alkaline Addition	III.E-9
4.	Abandoned Mine Lands	III.E-10
5.	Remining	III.E-10
a.	Water Quality Benefits of Remining	III.E-11
b.	Regulatory Aspects of Remining	III.E-12

Table of Contents

F.	APPALACHIAN FOREST COMMUNITIES	III.F-1
	1. Broadleaf Deciduous Forest Communities	III.F-2
	a. Mixed Mesophytic Forests	III.F-2
	b. Appalachian Oak Woods	III.F-4
	c. Northern Hardwoods	III.F-4
	d. Floodplain Forests	III.F-5
	2. Other Forest Communities	III.F-5
	a. Oak-Pine Forests (Hardwood/Conifer Forests and Mountain Hardwood/Conifer Forests)	III.F-5
	b. Pine Forests (Mountain Conifer Forests)	III.F-6
	3. Animal Communities	III.F-6
	a. Birds	III.F-7
	b. Mammals	III.F-8
	c. Herpetofauna	III.F-9
	4. Interior Forest Habitat and Area Sensitive Species	III.F-9
	5. Deforestation	III.F-10
	a. Forest Fragmentation	III.F-12
	b. Forest Edge Habitat, Edge Effect	III.F-13
	c. Patch Size	III.F-14
	d. Corridors	III.F-15
	6. Carbon Sequestration	III.F-16
G.	RELATIONSHIPS OF MOUNTAINTOP MINING TO SURFACE RUNOFF	
	QUANTITY AND FLOODING	III.G-1
	1. Regulatory Background	III.G-1
	2. EIS Peak Flow Studies	III.G-2
	a. Peak Flow Study	III.G-3
	b. Fill Hydrology Study	III.G-7
	c. July 2001 Floods Study	III.G-7
	d. Citizen Complaints Study	III.G-8
	e. Other Studies	III.G-8
H.	RELATIONSHIP OF MOUNTAINTOP MINING TO GROUNDWATER	
	QUALITY AND QUANTITY	III.H-1
	1. EIS Workshop Findings	III.H-1
	2. Pre-mining Appalachian Groundwater Flow System	III.H-1
	3. Impacts to Groundwater Quantity from MTM/VF	III.H-2
	a. Conceptual Model of MTM / VF	III.H-3
	b. MTM/VF impacts to the physical Ground Water system ..	III.H-3
	c. Impacts to Valley-bottom Groundwater Recharge From MTM/VF	III.H-5
	4. Impacts to Groundwater Chemistry From MTM/VF	III.H-6
	a. Geochemical Reactions	III.H-6
	b. Conceptual Geochemical Model	III.H-7
	5. Summary of Groundwater Impacts	III.H-8
	6. Groundwater Quantity and Quality Conclusions	III.H-9
I.	OVERVIEW OF APPALACHIAN REGION COAL MINING METHODS	III.I-1
	1. Underground Mining Methods	III.I-3
	a. Underground Mine Access	III.I-3

Table of Contents

b.	Room and Pillar Mining	III.I-4
b.1.	Conventional Room and Pillar Mining	III.I-4
b.2.	Continuous Room and Pillar Mining	III.I-7
c.	Longwall Mining	III.I-8
2.	Surface Mining Methods	III.I-11
a.	The Surface Mining Process	III.I-11
a.1.	The Importance of Stripping Ratios	III.I-13
a.2.	Approximate Original Contour	III.I-14
b.	Contour Mining	III.I-14
c.	Area Mining	III.I-16
d.	Mountaintop Removal Mining	III.I-20
e.	Highwall Mining	III.I-23
3.	Mountaintop Mining Complexes	III.I-26
a.	Shipping Point	III.I-26
b.	Processing Facility	III.I-28
c.	Coal Refuse Disposal Facility	III.I-28
d.	Surface Mines	III.I-28
e.	Underground Mines	III.I-29
J.	MTM/VF CHARACTERISTICS	III.J-1
1.	General Setting	III.J-1
a.	Topography	III.J-1
b.	Coal Reserves	III.J-1
c.	Transportation Access	III.J-2
d.	Occupied Structures	III.J-2
2.	General Mine Layout	III.J-2
a.	Permit Area Trends	III.J-3
b.	Support Facilities	III.J-6
c.	Erosion and Sedimentation Control Facilities	III.J-7
d.	Haul Roads	III.J-9
3.	Mining Equipment	III.J-9
a.	Production Equipment	III.J-9
b.	Haulage Equipment	III.J-10
c.	Support Equipment	III.J-12
4.	Operational Characteristics	III.J-14
a.	Working Areas	III.J-14
b.	Mining Progression and Backfill Configuration	III.J-14
c.	Coal Production and Duration	III.J-17
d.	Site Reclamation	III.J-18
d.1.	Contemporaneous Reclamation	III.J-18
d.2.	Topsoil Replacement/Substitution	III.J-19
d.3.	Revegetation Plan	III.J-19
K.	EXCESS SPOIL DISPOSAL	III.K-1
1.	Characteristics of Excess Spoil Generation and Valley Fills	III.K-1
a.	Swell Factor and Excess Spoil Generation	III.K-3
b.	Relationship of Valley Fill Construction Technique and Water Quality	III.K-10
c.	Valley Fill Stability	III.K-10

Table of Contents

2.	Trends in Valley Fills	III.K-13
a.	Regional Valley Fill Trends	III.K-21
b.	Kentucky Valley Fill Trends	III.K-24
c.	Tennessee Valley Fill Trends	III.K-26
d.	Virginia Valley Fill Trends	III.K-28
e.	West Virginia Valley Fill Trends	III.K-30
3.	Trends in Valley Fills Size	III.K-32
a.	Regional Valley Fill Size Trends	III.K-32
b.	Kentucky Valley Fill Size Trends	III.K-34
c.	Tennessee Valley Fill Size Trends	III.K-35
d.	Virginia Valley Fill Size Trends	III.K-36
e.	West Virginia Fill Size Trends	III.K-37
4.	Trends in Watershed Size	III.K-38
a.	Regional Watershed Trends	III.K-38
b.	Kentucky Watershed Trends	III.K-40
c.	Tennessee Watershed Trends	III.K-42
d.	Virginia Watershed Trends	III.K-44
e.	West Virginia Watershed Trends	III.K-46
5.	Trends on Stream Impact Under Fill Footprints	III.K-47
6.	Relationship of Excess Spoil Generation to Mining Method	III.K-50
7.	Relationship of Excess Spoil Generation to AOC Variance	III.K-50
a.	Excess Spoil Generation and AOC Relationships in Kentucky	III.K-50
b.	Excess Spoil Generation and AOC Relationships in Tennessee	III.K-51
c.	Excess Spoil Generation and AOC Relationships in Virginia	III.K-51
d.	Excess Spoil Generation and AOC Relationships in West Virginia	III.K-51
L.	MINE FEASIBILITY EVALUATION AND PLANNING	III.L-1
1.	General Considerations	III.L-1
a.	Property Ownership	III.L-1
b.	Capital Investment	III.L-3
c.	Reclamation Bonding	III.L-3
d.	Coal Market Conditions	III.L-5
e.	Permitting Requirements	III.L-6
2.	Site-Specific Considerations	III.L-6
a.	Geological	III.L-6
b.	Topographical - Geographical	III.L-7
c.	Operational	III.L-8
3.	MTM/VF Mine Economic Analysis	III.L-8
a.	Capital Investment	III.L-8
b.	Employment	III.L-13
c.	Costs and Earnings	III.L-13
d.	Taxes	III.L-13
4.	Mining Method Considerations	III.L-17
a.	Mine Method Selection Factors	III.L-17

Table of Contents

M.	COAL DISTRIBUTION AND MARKETS	III.M-1
1.	Coal Uses and Distribution	III.M-1
2.	Productivity and Price Trends	III.M-3
3.	Coal Demand and Production Projections	III.M-5
4.	Structure of the Coal Industry	III.M-6
N.	PAST AND CURRENT MINING IN THE STUDY AREA	III.N-1
1.	Kentucky	III.N-5
2.	Tennessee	III.N-5
3.	Virginia	III.N-6
4.	West Virginia	III.N-6
O.	THE SCOPE OF REMAINING SURFACE-MINABLE COAL IN THE STUDY AREA	III.O-1
1.	Demonstrated Coal Reserves	III.O-1
2.	Remaining Extent of Major Surface Movable Coal Seams	III.O-1
a.	Introduction	III.O-1
b.	Methodology	III.O-2
3.	Geologic Extent of Remaining Mountaintop-Movable Coal in the EIS Study Area	III.O-3
P.	DEMOGRAPHIC CONDITIONS	III.P-1
1.	Population	III.P-1
2.	Education Levels	III.P-1
3.	Income and Poverty Levels	III.P-1
4.	Analysis of Census Statistics for Select Communities	III.P-2
a.	Introduction	III.P-2
b.	Total Population Growth Trends	III.P-2
c.	Age Group Composition	III.P-3
d.	Racial Composition	III.P-5
e.	Poverty Levels and Unemployment Rates	III.P-6
5.	Environmental Justice Populations	III.P-6
a.	Regulatory Background	III.P-6
b.	Demographic Data Pertinent to Environmental Justice Populations	III.P-7
b.1.	Poverty Levels	III.P-8
b.2.	Per Capita Income	III.P-9
b.3.	Minority Populations	III.P-9
Q.	ECONOMIC CONDITIONS	III.Q-1
1.	Recent Trends in Unemployment Rates and Employment	III.Q-1
2.	The Economic Role of Coal Mining	III.Q-1
a.	Coal Mining Employment	III.Q-1
b.	Economic Multiplier Impacts of Coal Mining	III.Q-6
c.	Mining-Related Tax Revenues	III.Q-9
c.1.	Kentucky	III.Q-9
c.2.	Virginia	III.Q-10
c.3.	West Virginia	III.Q-10
d.	The Economic Role of Surface Coal Mining	III.Q-11
3.	Economic Projections	III.Q-13
a.	Central Appalachia Baseline Coal Economy Projections	

Table of Contents

	from EIA and University of Kentucky	III.Q-13
